

VAT Recovery — Savings on Business Travel Budgets

Most countries in the world today charge VAT as part of their fiscal policy. It can be as high as 25% in some countries. Every hotel stay or restaurant bill involves VAT. Payment of VAT during a business trip, is inevitable. Consequently, most companies just budget the VAT amounts as part of their Travel and Entertainment (T&E) expenses, and write them off as an expenditure. Many corporates do not realise that these amounts can be recovered. This can indeed become an interesting savings option on T&E budgets and expenditure.

VAT varies from 5% to 25%. The Scandinavian countries charge the highest rates. In some countries, different services or goods, attract [different rates of VAT that are chargeable](#). Some of the countries that refund VAT are: Austria, Belgium, Canada, Denmark, Finland, France, Germany, Ireland, Italy, Japan, The Netherlands, Norway, South Korea, Spain, Sweden, Switzerland and the United Kingdom. It must be noted that not all countries refund to every country. Some apply the rule of reciprocity. In other words, they will only refund to travellers from countries, who refund to their own travellers.

Today **Coromandel SAS** offers companies a turn-key solution to recover their VAT expenditure. There is nothing you have to do except enter into an agreement, provide copies of some regular documents and hand over the original invoices that are eligible for refund. We will take care of the rest. **There are no up-front fees applicable.**
